Rural Water-supply Scheme.

* 418 *Q.*—SRI K. R. VISWANATHAN : Will the Hon. the Minister for Health be pleased to state—

(*a*) whether the Five-Year Programme of Rural Water-supply Scheme begun in 1948–49 will be extended for a further period of five years; and

(*b*) whether repairs to drinking-water tanks will be taken up under this scheme?

THE HON. SRI A. B. SHETTY :—" (*a*) This programme has been dovetailed with the Five-year Plan and will be in force up to the year 1955–56.

" (*b*) Generally, repairs to drinking water tanks which are not sources of protected water-supply, are not taken up under the Rural Water-supply Scheme. Local bodies are responsible for effecting the necessary repairs to wells handed over to them."

SRI K. R. VISWANATHAN :—" Sir, in view of the fact that in certain dry parts of the State no water could be found in wells sunk to a depth of even sixty to seventy feet, will the Government consider the advisability of revising the policy of subsidizing rural water-supply by digging wells? Will they consider the advisability of changing their policy to repair the drinking water tanks which are the only sources of drinking water in certain parts? "

THE HON. SRI A. B. SHETTY :—" The Government are paying out of State funds the amounts necessary for sinking new wells and for deepening the existing wells and the amount that has been paid in this way has increased from year to year since the scheme began."
